

Leaf Collage

Make art with nature! Now that the trees are dropping their leaves, collect some and make a picture or collage with the beautiful fall foliage.

Supplies Needed

Loose leaves
Glue
Large sheet of paper for background
Paints or paint markers

How to Make it

Gather loose leaves from outside (you can collect them from anywhere- but we suggest the Wetland Park so that you're using native trees)! Brush off any dust. Fashion them into critters. Glue to the paper and there you have it!
